---

## Experience

### **Oluadape Farms Nig. Ltd / Frontend Developer | Intern Support Staff**

MAY 2022 - PRESENT, REMOTE

Develop client-side features for Desktop applications and build reusable codes with ReactJs. Collaborate with a team of 12 developers to meet milestones. Assist new Interns with assimilating into the company work culture smoothly.

### **ASOM Tech / Software Engineer Intern**

NOVEMBER 2021 - PRESENT, KAMPALA-UGANDA

Develop user-facing features in compliance with available UI designs. Build reusable codes with ReactJs. Using HTML, CSS, and Javascript to create web pages.

---

## Achievements

### **Co-Founder, Eco Options Uganda**

Built an e-commerce website for my sustainable menstrual health startup ( [Eco Options Website](#)). Over 300 Ugandan women have used this website to access menstrual cups and underwear. Carried out a [successful fundraiser](#) that enabled us to donate 200 menstrual cups to less privileged girls in Kasese district, Uganda.

### **Open Source Contributor - Open Source For Equality**

Developed an [audio web application](#) using amplitude-js that plays a collection of audio notes that are aimed at educating people about women's health in various local languages.

### **Winner, Women's Safety Ideathon & Hackathon (2022) / Women TechMakers Kampala**

---

## Education

**Makerere University, Kampala / Bachelor of Science, Civil Engineering**

MAY 2021
